

Answer Script

Name: Bob Jones

Roll No: 2026CS102

Course: CS101

Answers:

Q1. $O(n)$

Q2. Lists use square brackets `[]` and tuples use parentheses `()`.

Q3.

```
def reverse(s):
```

```
    return s[::-1]
```

Q4. Inheritance lets you inherit from a parent class. Polymorphism lets you use the same interface for different types.
